

# RECYCLING GUIDE FOR FOOD WASTE & USED OIL

Do not just throw these wastes to the bins!  
Go over this guide to dispose it properly.

## WHAT CAN BE RECYCLED?

Fruit

Vegetables

Bones

Meat

**BUT, REMEMBER:**

**COOKING OIL**  
should always be  
**SEPARATED** from  
**FOOD WASTE.**

## WHAT TO DO WITH THIS KIND OF WASTE

Decomposed food  
wastes and recycled  
organic materials are  
used to fertilize and  
improve the soil.

**COMPOST**

## CURRENT COMPOSTING INITIATIVES

Goodbye Basura Movement, Inc. aims to convert biodegradable garbage into organic fertilizers. The garbage shall be sprayed with the organic Garbage BioEnzyme to eliminate the foul odor.

Bokashi Pinoy is a social enterprise that focuses on turning food waste into nutrient-rich soil. It facilitates a program called the "30-day Garbage to Garden" challenge.
